

Special Rodeo - a wonderful way for CHSRA members to share the sport of rodeo by supporting and encouraging children with special needs, while at the same time educating communities about individuals with disabilities. It's "Kids Helping Kids," with everyone learning through an enriching hands-on experience.

# SPECIAL RODEO

No one loves rodeo more than children. Many of their heroes are cowboys and cowgirls. These kids may have dreams of performing in dusty arenas and becoming rodeo stars. This may seem an impossible goal for children unfairly dealt a disability, but not for those living in California.

The CHSRA Special Rodeo allows California's finest high school rodeo athletes to work one on one with children with special needs in a modified rodeo, where all contestants become a champion.

Each exceptional cowboy and cowgirl will go home with some new cowboy gear, like a hat, bandanna and the like. They meet some high school rodeo performers, and some fast friends are made. But most of all, these special children and their families take with them treasured moments they'll never forget.

From humble beginning over a decade ago, the Special Rodeo Program has developed into something very special. This is only possible through a generous sponsorship from Cargill Cares Foundation and California Cargill divisions including Food Distribution, Sweeteners, Horizon Milling, Dressings, Sauces and Oils, Salt and Animal Nutrition.
