During rough stock events and steer wrestling an advanced life support (ALS) or Basic Life Support (BLS) ambulance shall be on the rodeo grounds. During timed events, certified EMS personnel listed shall be on the rodeo grounds. An ambulance does not have to be on the rodeo grounds during timed events, but must be readily available with a response time location of no more than 10 miles. Cutting, Reined Cow Horse and Queen Contest, which may be off-site, may utilize any of the certified EMS personnel listed, without an ambulance on-site.

****CHSRA strongly recommends and encourages that each district provide an ambulance at each rodeo if available****

When an ambulance is not on-site for timed events, queen, reined cow horse or cutting events basic life support (BLS) medical equipment must be readily available. Each district should consider purchasing their own equipment and have it readily available at all CHSRA sponsored rodeos and events. An example of BLS medical equipment can be found at the following link:

<https://gearbags.com/shop/kits/first-responder-kits/lxmb30-sck/>

Additionally, any fundraiser (Examples – jackpot team roping or barrel race) organized by a District or CHSRA, and not sanctioned by another group or entity, must have certified EMS personnel listed on-site. An ambulance does not have to be on-site during fundraisers but must be readily available with a response time location of no more than 10 miles.

Any deviation in the listed requirements must be approved by the CHSRA board prior to holding the event. A written letter must be submitted to the board 1 month prior to holding the event.

- i) Any letters sent out by District on letterhead needs to be approved by that District's Board.
- j) **SPECIAL RODEO/Community Outreach:** Each District shall hold one Special Rodeo/or community outreach project each year in their District. A fine of \$1000 to be assessed to a District that does not hold a Special Rodeo/Community Service Activity each year. The discretion of implementing this fine shall be by the State Executive Board. The district Queen shall be responsible to write a press release and send to the state board and Gentry Media, for publication in the CHSRA Times
- k) **SET UP GUIDELINES: SET UPS ARE NOT GUARANTEED**
Guidelines are as follows:

- All set-up forms must be emailed to host rodeo secretary by close of entries. **All set-ups must be called and verified as a school activity by the rodeo secretary.**
- All set-ups must be for high school functions only, which include school sponsored activities, testing for college admittance, or athletic games or competitions. Saturday school for tardies, absences or any behavior issues DO NOT constitute for a set-up. Contestant must be a valid member of a school team, contest or test activity occurring on a rodeo date. The conflicting game must be taking place within the defined CIF Sports season parameters as indicated by CIF school sports schedules. (June 2016)
- Set-ups are for Saturday: Sunday set-ups will be accepted if there are not any Saturday set-ups. Saturday set-ups will have precedence. Set ups will not be accepted for 1 day rodeos
- **If a contestant arrives at the rodeo before their event on the day of an arranged set-up, they will be required to compete. Every attempt shall be made to arrive at the rodeo to compete in scheduled events when possible. If school activity is cancelled, every effort to attend rodeo must be made**
- Set-ups will be run prior to the start of 2nd go round of that event. Stock and positions will be drawn for set-ups just the same as other contestants. **The contestant will compete in their normally drawn position on the non set-up go.** (This does not allow for a separate draw on the set-ups)
- Contestants that are setting-up must be notified when set-ups will be completed.
- State finals and any State rodeo will **NOT** implement set-up guidelines.
- l) **DISTRICT POLICIES:**
 - **Districts shall be required to submit a copy of their District Policy Manual to the State Board of Directors by July 1 for approval each year to the State Board's first meeting in August.**
 - Should a District, prior to the August State Board meeting make no new submittal, the previous year's policy manual, on file, shall remain in effect for that District for an additional year.
 - **District Optional Policy Regarding Awards:** This policy is optional for each district, but needs to be decided on and accepted at the beginning of the rodeo season. To be eligible for awards, a student needs to compete in 50% plus one, of the total rodeos the district sanctions during the season. Special circumstances and injuries to be addressed by the district board. (Aug 2002)
- m) Districts must be aware that District's are responsible for paying an extra (additional insurance) fee, per rodeo, when the general public has access. This includes fund-raisers, jackpots, etc.

12. EVENT RULES:

- I. **Safety:** No contestant shall compete on a horse in timed events or cutting that poses a danger to the rider, spectator or other contestants, due to unsafe conduct, in or around the event arena. If a danger is identified, the arena director, Judge, and Rodeo committee shall have the right to disqualify the horse from that rodeo.
- II. **Points** - In keeping track of points, points awarded to a contestant after a rodeo, cannot be removed. Contestants can be dismissed during a rodeo if it is determined that the contestant is non-eligible. The exception to this rule is if a clerical error has been made and the points are correctly adjusted. [Points earned during the rodeo up to the time of dismissal, cannot be removed]. If a contestant is determined to be ineligible at the time of the competition, the points earned during that time frame can be revoked. In team events (team roping and ribbon roping) partner's points will be revoked as well. Points will automatically be rolled down to the remaining placing contestants (clarification - Aug 2021) Average points are awarded only when contestants have competed in BOTH go rounds. A turn out does not constitute an attempt to compete, therefore no average points will be awarded
- III. District's may **NOT** hold more than two (2) go's of any one event, in any one day. (effective January 2004) This prevents a past practice of up to four gos in one day and can be considered a physical hardship on the horses, and contestants. Nationals recommends holding no more than the two gos in one day.
- IV. **Students must check in at the start of each rodeo. Refusing to contest is considered a TURN OUT for both gos. You must make an honest attempt to compete on the animal drawn for you.**
CLARIFICATION: Contestants are to contact the host district rodeo secretary if they cannot make the rodeo check in time, to be able to make their run. By contacting the rodeo secretary, they may still take their second run, but will receive no average points. If the contestant is on the grounds, and missed their event, they are a Turn Out for both go's! Refusal to compete during the first run, is still treated as being disqualified for the second go of that event.
A contestant that is "Timed out at the Gate" by the judge is NOT a Refusal to compete and is not a disqualification from the event. The contestant may compete in their 2nd go, but will receive no average points. (August 2015)
- V. **A RODEO** constitutes all events to be complete **before** the second go starts with the exception of cutting and special set ups. Exceptions to this policy must be approved by the California National Director or the State President. (January 2007)

a) Cutting:

- **CHSRA shall perform a draw for each go of the cutting performed at all CHSRA events**
- If cutting event is held at another location or date, other than the rodeo, a check-in will be made available at that location for cutting contestants. If contestant turns out at rodeo but appears for check-in for cutting, he/she will be allowed to compete.
- **CUTTINGS ARE TO BE OFFERED TO ALL CONTESTANTS IN THE DISTRICT, AND TO GO OUT ON THE SAME ENTRY FORM AS ALL OTHER EVENTS.**
- A minimum of two head of cattle per contestant is required.
- When cutting event is held **NOT** in conjunction with other rodeo events, an Emergency Medical Technician (EMT) is required at the cutting, equipped with trauma equipment. (oxygen-support, boards, etc.)
- At any State Invitational and State Finals Rodeo, boys will go first on odd years with girls going first on even years.

b) BAREBACK RIDING HORSES:

It is mandatory all bareback horses have halters on during competition.

c) PUSHERS:

The person pushing the cattle in the timed events can't leave the mouth of the box until the animal has crossed the scoreline. Penalty for failure to abide by this rule will be a no time. Infraction to be determined by barrier line judge.

d) TEAM ROPING – (and Ribbon Roping)

Points to determine qualifiers for any State Invitational and State Finals Rodeo are as follows:

1. State Invitational Rodeo (Challenge) is top three (3) point earners. Junior High State Finals is top five (5) point earners, High School is top six (6) point earners. Points will be given as header or heeler.(or boy/girl in the Ribbon Roping) in the District. Points will be compiled throughout the year in these categories.
2. Ghost partners do not receive points. Points are awarded as a team, not per position
3. **Partners must be from the same District to compete for points. (This is also the case for the Jr High Division Ribbon Roping Event)**
4. Points for Team Roping will be determined by which roping box the contestant starts from on the first go of the rodeo. If he leaves the header box, he gets header points. If he leaves from the heeler box, he gets heeler points.
5. Contestant can only qualify as either a header or heeler, not both. If contestant has enough points for both, he must pick one.
6. If one of the top original qualifying contestants is unable to go, for any reason, the next highest point earner in an Alternate Position, in that category (header or heeler) may fill the position in descending order of points, until the top positions in each category are filled. The resulting qualifiers may then team up, one header with one heeler, as they see fit. Such joined teams must declare their partnership to the District Rodeo Secretary, before entries for any State Invitational or State Finals Rodeo are distributed.
- ***** **Partners must be from the same District to make a valid team for district points.**
7. In High School Team Roping, if a partner is injured and cannot compete in the 2nd go, the team will be considered a notified turn out for the 2nd go. A partner cannot be drawn for the 2nd go. If the injury occurs before the first go of the team roping has started, a ghost partner can be drawn OR a contestant that is not already entered in the team roping can be substituted

GHOST ROPER AND PROCEEDURES: (August 2007) High School and Junior High Division.

California will use the "Ghost Roper" Option as outlined in the NHSRA Rule Book.

1. For clarification purposes, when a Team Roper or Ribbon Roper enters without a partner, the Rodeo Secretary will make an attempt to pair up those individual when there are multiple single ones. In the Team Roping, she will draw the open headers and heelers until no further bachelor teams can be formed. The remaining unmatched header or heeler will be drawn a partner (as per the "Ghost Roper" option) from the volunteer header or heeler list. The Ghost Partner drawn is eligible for jackpot money but no points will be earned. The "bachelor" earns points for any placing he or she may earn. Volunteer draw partners may be drawn more than once if there are too few volunteers to match up with those requesting a draw partner. **A contestant may have the option to request a Ghost Roping Draw Partner after the close of entries, up to the day of the actual rodeo if circumstances should occur that they need a partner last minute. (Revised August 2015)**
2. **A team may be formed using partners from two different districts for jackpot and prizes only, at rodeos not included in the district sanctioned rodeo schedule. (Revised August 2018)**
3. **Members may use a ghost partner a maximum of 4 times per rodeo season**

4. In high school, a ghost partner may be drawn up to the start of the first go of team roping. After a team has competed in the first go, a partner MAY NOT be drawn for the 2nd go.

5. **The following must be on the Entry Form, and contestant can declare that they either need a Ghost Roping Partner, or are willing to be drawn for a Ghost Roper match.**

ENTRY BLANK: The following wording needs to be added to the entry blank:

I Wish to be drawn a Ghost Roping Partner. Yes NO Header or Heeler

Do You Want To Volunteer to be a Draw Partner? YES or NO Header or Heeler ?

5. If there are no volunteers at the time of the draw, ghost roping will not be an option at said rodeo.

e) GOAT TYING

1. Method of drawing goats at State Finals.
 - a. One goat per five girls (minimum) Goats may be changed more frequently if stock permits
 - b. After first go round, tie goats up to (five (5) times which have not had a complete run of contestants on them.
 - c. Positions will be reversed after first go-round. If contestant is first on her goat the first go-round, she will be last on her second goat. If she is second in first go round, she will be fourth and if third, she will be third again.
 - d. In final go-round, write down all previously drawn goats. Make sure same goat is not drawn for contestant as in previous rounds.

f) TIE DOWN ROPING

1. Jerking the calf down. If a contestant jerks the calf down a five (5) second penalty shall be added to his time. "Jerking a calf down" is defined as over backwards, with the calf landing on his back or head with all four feet in the air.
2. **The judge may have the contestant or outside person remove or cut the rope to avoid a situation in which a contestant or animal may be harmed. The six second procedure shall start immediately.** (July 2016)

g) BULL RIDING/SADDLE BRONC/BARE BACK

1. Safety. All contestants in these events shall wear a vest designed to prevent injury to the upper body. The vest shall be one that is manufactured for rodeo events and sold by retailers, for the purpose of preventing injury to the upper body resulting from impact of heavy blows.

AWARDS – STATE FINALS - Policy for Ties for Year End Event Champions

******QUALIFYING RODEOS**

- All District rodeos are qualifying rodeos.

13. JOB RESPONSIBILITY OF THE MEMBERSHIP SECRETARY

- State forms (listed on membership paperwork) are to be signed and uploaded to national membership portal

14. TIMERS:

REQUIRED: 2 timers plus one back-up timer. Times to be averaged by lead and second timer if using handheld stop watches. If lead or second timer fail to get a time; average will be taken with the back-up timer.

In timed events, timer's eyes go directly from the barrier flag to the field flagger. Do not anticipate the drop of either flag. When recording times, always record the total time. In case of penalties use a small + sign in left corner for broken barriers and a small + sign in right corner for other fines. Suggest ink to be used on score sheets. Judges use pencil.

In riding events, be sure no riders or anyone else obstruct your view. Start your watch when the animal's inside front shoulder breaks the plane of the chute. This does NOT mean just their head and neck. If an animal comes out

backward, "plane of the chute" is still correct. When you have started your watch, turn your back to the arena, or turn your head so you cannot see the ride. Begin to blow the whistle two-tenths before eight (8) seconds. A ten (10) second swoop hand watch is much easier to use than a digital.

The exception to this rule is if a clerical error has been made and the secretary correctly adjusts the points/scores. [Points earned during the rodeo up to the time of dismissal, cannot be removed] Contestant will still be dealt with in accordance with the rule book/policy manual regarding falsification of Entry or Report Card, which is cause for immediate disqualification. If a contestant is determined to be ineligible at the time of the competition, the points earned during that time frame can be revoked. In team events (team roping and ribbon roping) partners' points will be revoked as well. Points will automatically be rolled down to the remaining placing contestants (clarification - May 2004)
- 22) In recognition of California law that young people are not to be in possession of any alcohol, tobacco, or marijuana product, CHSRA contestants will not use these products at any sanctioned event, while on the rodeo grounds, at any hotel or campground, or in the vicinity of the rodeo while the rodeo is still going on. (Rodeo is considered on going from start of check in until the last contestant has completed their run). Violations would be treated the same as those regarding a contestant out of western attire, not wearing a contestant number, etc. (effective June 2004)

These jackpots shall not be mandatory. They shall not be responsibility of the rodeo secretary. The District Board may appoint a Jackpot secretary.

- b. Districts may choose to INCLUDE Jackpot money for **ALL** contestants on their entry forms. Each district has the flexibility to set their jackpot fee on a floating scale, with the minimum of \$10 per event (\$5 per go round) and a maximum of \$30 per event (\$15 per go round) per contestant for high school. Since junior high is 1 go round the scale would be minimum of \$5 per event and maximum of \$15 per event per contestant.
